

## EDITORIAL

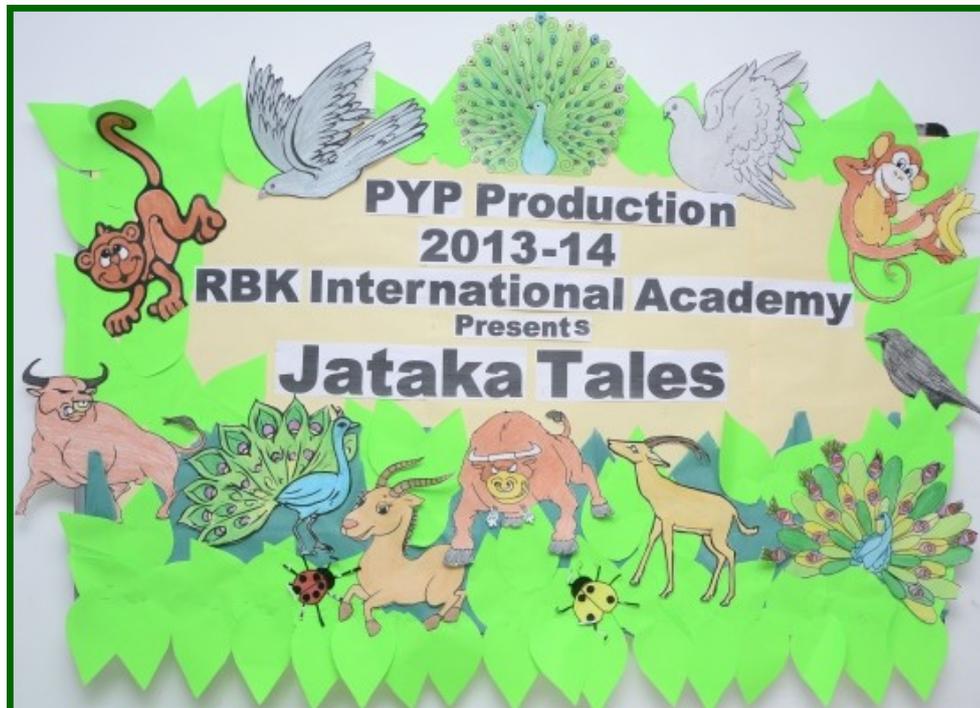

### FROM THE DESK OF THE MANAGEMENT REPRESENTATIVE

We had our PYP production day celebration on Saturday 3<sup>rd</sup> May. This time, the theme selected was '**JATAKA TALES**', a voluminous body of literature originated in India, featuring the previous births of Bodhisatva. Etymologically Jataka comes from word JATI which means 'birth'. Jataka tales is a collection of stories about previous lives of the future Buddha, in both animal and human form where he may appear as an elephant, a horse, a deer, an outcast, a king or bird or in whatever form, he exhibits some virtue that the tale inculcates humanity with.

Our little ones enacted 10 such stories in an excellent way, through dances, dialogues and emotions. I'm sure the audience-our own parents enjoyed every bit of it, as reflected on their smiling faces. Well done all my team of PYP ! You all did rock!

We are coming to the last part of this academic year. Now, our students are busy with year end examinations. Time just fleets, RBKIA ever busy buzzing with lot of activities and learning. Well, our children and the staff are ever ready for any task, in the true IB spirit!

**Dr. Arundhati Hoskeri**  
Management Representative

ASSEMBLY FOR END OF THE ACADEMIC YEAR 2013-14

Friday, 25<sup>th</sup> April..... This year-end gathering was organized in our auditorium to honour students with various accolades; certificates or prizes, which they had earned in the course of the year. *Raena Menon* Grade 9 recounted her delightful experience as a chair at **RMUN** (our school's very first Model United Nations). Following this, certificates were awarded to the list of students who had spent countless numbers of hours working behind-the-scenes to ensure the event went off smoothly to the administration staff, the organizing committee, the press team or the chairs of this prestigious function.

Next, our principal, Mr Edward Robinson and our Management representative, Dr Arundhati Hoskeri, distributed certificates to the students of Grades 6 and 7 who had collected funds for the NASEOH organization! Our principal spoke words of praise about NASEOH and this was followed by an inspirational year-end speech, courtesy, our management representative.

Last, on the day's programme was our coordinator, Ms. Anshu Sharma's instructions for the end of semester examinations and wished us all best of luck!

So, let us all come back rejuvenated!

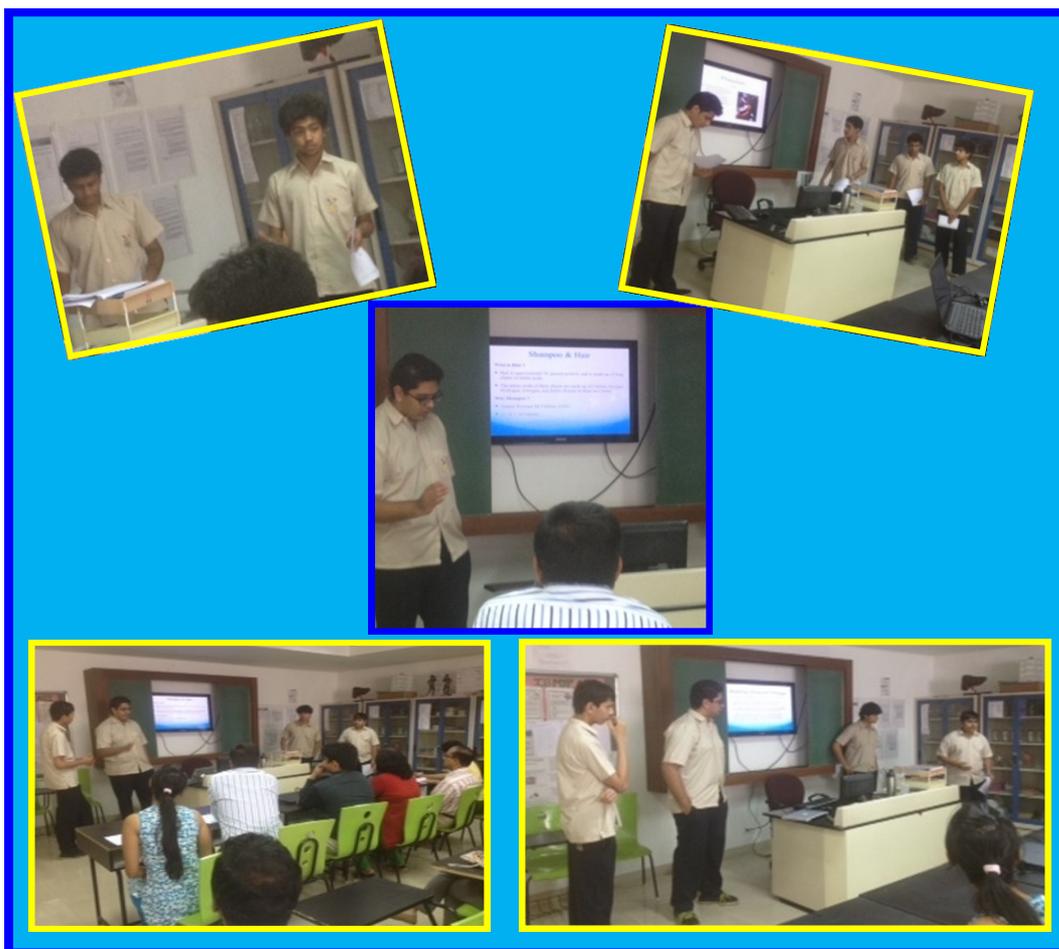

## GO GROUP 4

**G**ROUP 4 project is one of the biggest and most important parts of science in IB. Not only is it important for science students but as well as those who have taken ESS. It is the combination of all of the sub parts of science, Physics, Chemistry and Biology. It is gruelling 10 hours as prescribed by the IB in which students combine their efforts to come with a science project that involves all the group 4 subjects under one topic that we call *umbrella topic* and in our case the umbrella topic was on toiletries.

**GROUP 4** projects promote *teamwork, critical thinking and knowledge*, as students of other subjects get to learn more about the other subjects in a group, and we also get to learn more about our classmates.

**GROUP 4** project is one of the vital parts of IB because it endorses science and builds teamwork.
